Introduction

CCMP II :-

Is a Chemical Management Information System improved from CCMP I to increase efficiency in managing chemical operations such as :-

- Application for Chemical Certificates
- Application for Chemical Permits
- Application for Registration of Chemicals
- Submission of Precursor Chemical Returns
- Renewal of Chemical Certificate

CCMP II MODULES

The eight(8) major modules for CCMP II are :-

- Company Module
- Certificate Module
- Premise Modules
- Chemical modules
- Permit Module
- User Management Modules
- Bill Modules
- Inspection Modules

CCMP II Improvements

- CCMP II has been integrated with Government Electronic Payment Gateway(GePG) to provide automatic Control Number.
- Customer can edit his request before submitting it to GCLA
- CCMP II sends notification through email when the customer submits an application to GCLA
- The certificate is issued for each Premise
- Chemical registration is done on each registered premise
- Payment Receipt is automatically generated from the CCMP II

Implementation Status

- So far 20 companies have been selected for the pilot which will last for four (4) months from 1st December to March 2023.
